

Table of Contents

1 – Residential Buildings: Technologies, Design, Performance Analysis, and Building Industry Trends

- 176 Incorporating Insulating Sheathing into the Design of the Thermal and Moisture Management System of the Building Enclosure**
Peter Baker, Building Science Corporation
- 67 Testing a Residential Fuel Cell for Combined Heat and Power**
Mike Bell, Innovative Energy Systems
Mike Swinton, National Research Council Canada
Marianne Manning, National Research Council Canada
Evgueniy Entchev, Natural Resources Canada
John Gusdorf, Natural Resources Canada
Frank Szadkowski, Natural Resources Canada
- 90 Field Investigation of Energy-Efficient Homes in a Hot, Dry Climate**
John Broniek, IBACOS, Inc.
William Rittelmann, IBACOS, Inc.
- 334 New Homes with Load Shapes to Make an Electric Utility Drool: How to Integrate Multiple DSM Strategies to Achieve Long Term Energy Performance Goals**
Bruce Cenicerros, Sacramento Municipal Utility District
Bruce Vincent, Sacramento Municipal Utility District
- 521 How to Build a Zero Electric Utility Cost House**
Jeff Christian, Oak Ridge National Laboratory
- 150 It Sounded Good on Paper: Field Performance of Residential Heat Pumps in the Pacific Northwest**
Bob Davis, Ecotope, Inc.
David Baylon, Ecotope, Inc.
Shelly Strand, Ecotope, Inc.
- 386 Combining Photovoltaic Systems with ENERGY STAR® Homes: Lessons Learned from a Demonstration Program Focused on New Construction and Production Builders**
Dianne Griffiths, Steven Winter Associates, Inc.
- 66 Modified Air Circulation: Energy Savings and Indoor Air Quality**
John Gusdorf, Natural Resources Canada
Frank Szadkowski, Natural Resources Canada
Craig Simpson, Craig J. Simpson Technical Services
Mike Swinton, National Research Council Canada
T.J. Hwang, Enbridge Gas Distribution
- 53 Without Strip Heat: In-Situ Monitoring of a Multi-Stage Air Source Heat Pump in the Pacific Northwest**
Adam Hadley, Bonneville Power Administration
Jack Callahan, Bonneville Power Administration
Richard Stroh, Bonneville Power Administration

- 4 Peak Demand Limiting in New York Residential Housing: Automatic Air Conditioner Load Curtailment and Demand Limiting Using Wireless Mesh Communications**
Daniel Harris, Association for Energy Affordability
Michael Bobker, CUNY Institute for Urban Systems
- 230 Design, Installation, and Performance of Solar Hot Water Systems in New Homes**
Eric Helton, IBACOS, Inc.
Robb Aldrich, Steven Winter Associates, Inc.
Gayathri Vijayakumar, Steven Winter Associates, Inc.
- 251 University of Nevada Zero Energy House Project**
Rick Hurt, Center for Energy Research, University of Nevada at Las Vegas
Robert Boehm, Center for Energy Research, University of Nevada at Las Vegas
Yahia Baghzouz, Center for Energy Research, University of Nevada at Las Vegas
Abe Cubano, Consol
Mary Jane Hale, National Renewable Energy Laboratory
- 389/391 Regression Modeling to Analyze Apartment Space Heating Demand and the Influence of Electrical Use Diversity**
Don Hynek, Wisconsin Division of Energy
- 718 Measured Effect of Air Flow and Refrigerant Charge on Heat Pump Performance in Heating Mode**
Erin Kruse, Ecotope, Inc.
Larry Palmiter, Ecotope, Inc.
- 121 Using Building America to Demonstrate "Less Is More"**
Terry Lenhart, Advanced Energy of Wisconsin
Mary Lenhart, Advanced Energy of Wisconsin
Mary Meunier, Wisconsin Division of Energy
Richard Stone, Sawtooth Ridge Woodcraft
Peter Kraus, Kraus Construction, Inc.
- 236 Residential Two-Stage Gas Furnaces: Do They Save Energy?**
Alex Lekov, Lawrence Berkeley National Laboratory
Victor Franco, Lawrence Berkeley National Laboratory
James Lutz, Lawrence Berkeley National Laboratory
- 413 BPM Motors in Residential Gas Furnaces: What Are the Savings?**
James Lutz, Lawrence Berkeley National Laboratory
Victor Franco, Lawrence Berkeley National Laboratory
Alex Lekov, Lawrence Berkeley National Laboratory
Gabrielle Wong-Parodi, Lawrence Berkeley National Laboratory
- 719 True R-Values of Round Residential Ductwork**
Larry Palmiter, Ecotope, Inc.
Erin Kruse, Ecotope, Inc.
- 47 How Much Energy Are We Using? Potential for Energy Demand Feedback Devices**
Danny Parker, Florida Solar Energy Center
David Hoak, Florida Solar Energy Center
Alan Meier, Lawrence Berkeley National Laboratory
Richard Brown, Lawrence Berkeley National Laboratory

- 465 Two-Stage High Efficiency Air Conditioners: Laboratory Ratings vs. Residential Installation Performance**
John Proctor, Proctor Engineering Group, Ltd.
Gabriel Cohn, Proctor Engineering Group, Ltd.
- 315 The Winding Road Towards "Zero" Energy: Lessons from Monitoring Efficient Solar Homes**
Srikanth Puttagunta, Steven Winter Associates, Inc.
Robb Aldrich, Steven Winter Associates, Inc.
Douglas Owens, Steven Winter Associates, Inc.
Gayathri Vijayakumar, Steven Winter Associates, Inc.
- 158 Field Monitoring of High Efficiency Residential Heat Pumps**
Howard Reichmuth, New Buildings Institute, Inc.
David Robison, Stellar Processes
Bob Davis, Ecotope, Inc.
Dennis Landwehr, Stellar Processes
- 92 A Systemic Short-Term Field Test for Residential HVAC Thermal Comfort Performance**
William Rittelmann, IBACOS, Inc.
- 187 Can SEER Be Saved?**
Harvey Sachs, American Council for an Energy-Efficient Economy
Hugh Henderson, CDH Energy
Don Shirey, Florida Solar Energy Center
Steven Nadel, American Council for an Energy-Efficient Economy
Daniel Jaynes, Glenn Fellow, Ohio State University
- 45 The CO₂ Heat Pump Water Heater as a New Countermeasure Against Global Warming: Drastic Improvement in Energy Efficiency in Three Years Since Its Debut**
Yoshiaki Shibata, Jyukankyo Research Institute
Chiharu Murakoshi, Jyukankyo Research Institute
Hidetoshi Nakagami, Jyukankyo Research Institute
- 322 Zero Energy: Designing and Monitoring a Zero Energy Building that Works: The Science House in Minnesota**
Jason Steinbock, The Weidt Group
David Eijadi, The Weidt Group
Tom McDougall, The Weidt Group
Prasad Vaidya, The Weidt Group
Jeff Weier, The Weidt Group
- 276 Field Monitoring of the Hygrothermal Performance of Interior Basement Insulation Systems**
Kohta Ueno, University of Waterloo
Aaron Townsend, Building Science Corporation
- 632 A Review of Housewrap Performance and Its Implications for Energy Savings**
Theresa A. Weston, DuPont Building Innovations

146 Implementation of the Building America Program Benchmark in the EnergyValue™ Housing Award Program

Joseph Wiehagen, NAHB Research Center

Tom Kenney, NAHB Research Center

Kevin Mo, NAHB Research Center

Ali Jalalzadeh-Azar, National Renewable Energy Laboratory

Matthew Shaeffer, Boston University (student)

662 Air Handlers: An Appliance of Airtight Defiance?

Charles Withers, Florida Solar Energy Center

James Cummings, Florida Solar Energy Center
