

**PANEL 11 ACCEPTED PAPERS**

<b>Title</b>	<b>Category</b>	<b>Lead Author First Name</b>	<b>Lead Author Last Name</b>	<b>Lead Author Organization</b>
Building Advanced Energy Communities, One Community At a Time	Oral	Genaro	Bugarin	The Energy Coalition
Resilient, Rural, and Revolutionary: Salisbury Square’s Direct Current Affordable Microgrid Community	Oral	Peter	Schneider	VEIC
Valuing Risky Business: A Novel Approach to Measure Building Energy Resilience Under Extreme Temperature-Power Outage Events	Oral	Michael	Reiner	U.S. Department of Energy
Building Codes Driving Climate Mitigation and Adaptation	Oral	Joseph	Sollod	International Code Council
Incorporating climate change scenarios into risk-informed resilience planning	Oral	Hannah	Rabinowitz	Pacific Northwest National Laboratory
Climate Resilient, Efficient and Sustainable Thermal comfort (CREST) Technologies for Affordable Housing in India	Oral	Srishti	Sharma	Alliance for an Energy Efficient Economy (AEEE)
Nationally-Distributed Job Creation & Economic Benefits of US Energy Efficiency and Infrastructure Investments	Oral	John A.	Laitner	Economic and Human Dimensions Research Associates
Decarbonization in Climate Resilience Planning	Oral	Alison	Delgado	Pacific Northwest National Laboratory
Set-up for Success: Lessons learned from governments in implementing effective clean energy programs	Oral	Amanda	Dewey	American Council for an Energy Efficient Economy
In Search of the Holy Grail: Benefits data for Solar PV O&M Programs	Oral	Billie	Holecek	Lawrence Berkeley National Laboratory
Resilience, emissions, and costs of various residential space heating technologies	Oral	Imran	Sheikh	Institute for Energy Studies at Western Washington University
Weathering the storm: microgrid feasibility studies for municipal applications	Oral	Maddie	Koolbeck	Slipstream
California Community College Addresses Wildfire Related Outages with Microgrid Demonstration Project	Oral	Demetra	Tzamaras	Center for Sustainable Energy
New Indices for Sustainability in the Face of Climate Change	Oral	David B.	Goldstein	Natural Resources Defense Council (NRDC)
Costs and Benefits of Energy Efficiency Policies for Existing Buildings	Oral	David	Ribeiro	American Council for an Energy-Efficient Economy

**PANEL 11 ACCEPTED PAPERS**

<b>Title</b>	<b>Category</b>	<b>Lead Author First Name</b>	<b>Lead Author Last Name</b>	<b>Lead Author Organization</b>
Tracking City Progress towards International Emissions Targets for the Buildings Sector	Oral	Alexander	Jarrah	American Council for an Energy-Efficient Economy
Local Government's Role in Community Based Energy Resiliency	Oral	Cody	Coeckelenberg h	Lincus, Inc.
Integrating Resilience into Sustainability Programs Guidelines and Tools	Oral	Elizabeth	Kutschke	Center for Sustainable Building Research
Safe Air for Rural Communities Facing Fire Risk	Oral	Peter	Alstone	Schatz Energy Research Center
Driving Displacement: Energy's Role in Urban Gentrification	Oral	Sharanya	Madhavan	Greenlink Analytics
Come on down and play the price is right! What do you bid for keeping the lights on?	Oral	Jean	Shelton	Verdant Associates
How Denver Passed its Ambitious New Building Performance Standard, and How Your City Can Too	Oral	Christine	Brinker	Southwest Energy Efficiency Project
Building Decarbonization Policies in the Midwest	Oral	Alison	Lindburg	Midwest Energy Efficiency Alliance
Resilience Hubs – Equitably Delivering Benefits to Underserved and Vulnerable Communities	Oral	Anastasia	Roy	APTIM
Keeping the lights on: the Oakland EcoBlock community electrification and microgrid improves health, comfort and resilience in an urban neighborhood	Oral	Amy	Dryden	Association for Energy Affordability
Leveraging Energy Efficiency, Demand Response, and Clean Energy Resources for Resilient Energy Assurance of Critical Community Services	Oral	Bill	Eger	City of Alexandria
The Carbon-neutral, Affordable, Resilient, and Equitable (CARE) Community: Nexus of Energy Efficiency, Renewable Energy, and Natural Gas in a Cold Climate	Oral	Xin	Jin	National Renewable Energy Laboratory
Electrification as a Energy Resiliency Strategy	Oral	Bill	Eger	City of Alexandria
Can Building Electrification Bring Resilience to Low Income Communities?	Oral	Heather	Rosenberg	ARUP
The Assessment of the Results of Covenant of Mayors for Climate and Energy Initiative	Oral	Paolo	Bertoldi	European Commission
Designing for Zero Energy and Zero Carbon on a Multi-Building Scale using URBANopt	Alternate	Zahra	Fallahi	University of Colorado Boulder
Towards a more responsive, resilient, and equitable power system using the cable TV network	Alternate	Sunhee	Baik	Lawrence Berkeley National Laboratory

**PANEL 11 ACCEPTED PAPERS**

Title	Category	Lead Author First Name	Lead Author Last Name	Lead Author Organization
Controlled Environmental Agriculture: Growing Local Food, Capturing Carbon with Flexible Onsite Power and Advanced Controls	Alternate	Thomas	Bourgeois	Pace Univ Energy & Climate Center
Scalable Deployment of Energy Efficiency and Grid Services in Commercial Buildings to Support Decarbonization	Alternate	Srinivas	Katipamula	Pacific Northwest National Laboratory
Partnering to expand access to energy efficiency in Massachusetts frontline communities	Alternate	Brooks	Winner	Metropolitan Area Planning Council
An Innovative Approach to Driving Commercial Energy Efficiency Projects Post Hurricane Ida	Alternate	John	Krzystowczyk	APTIM
Energy vs. Carbon: Jurisdictions and Utilities Align Metrics	Alternate	Rohini	Srivastava	American Council for an Energy Efficient Economy
Decarbonizing the Building Sector: A human-centered study focused on small/light commercial building energy equity	Alternate	Chrissi	Antonopoulos	Pacific Northwest National Laboratory
