

The 2025 Summer Study on Energy Efficiency in Industry
"Industrial Competitiveness and the Evolving Energy Landscape"

(DRAFT) PROGRAM

Updated 4.23.25

UNC Charlotte Marriott Hotel and Conference Center
Charlotte, NC
July 16-18, 2025

Welcome to ACEEE's 16th biennial Summer Study on Energy Efficiency in Industry, "Industrial Competitiveness and the Evolving Energy Landscape." The theme could not be more timely given this year's macroeconomic changes. Experts from around the globe will gather to discuss the policies, funding, operations, and technologies essential to sustaining industrial competitiveness, for individual firms and the sector at large. We will explore how partnerships are key to success, and we will compare national and state policy to identify immediate and long-term opportunities.

Immerse yourself over three days in workshops, track and informal sessions, Plenaries, and networking time. The conference will kick off with side events such as the SEM Summit and Industrial Heat Pumps Buyers Bootcamp on Wednesday, July 16. Continue Thursday and Friday with Plenaries featuring key leaders in the industrial space and four Track session options: Track 1: Grids, Pipes, and Funding; Track 2: Technology and Operations; Track 3: Bringing New Energy to Leadership; and Track 4: Collaborating through Complexity: Navigating Industrial Value Chains. You will leave the Summer Study with an expanded network and an action plan to meet your goals.

PLANNING COMMITTEE

CO-CHAIRS:

Ammi Amarnath, Electric Power Research Institute (EPRI)
Evelyn Lundhild, Independent Electricity System Operator (IESO)

TRACK LEADERS:

Track 1: Grids, Pipes, and Funding

Steven Coley, TVA
Baskar Vairamohan, EPRI

Track 2: Technology and Operations

William Peter, Oak Ridge National Laboratory
John Seryak, Go Sustainable Energy

Track 3: Bringing New Energy to Leadership

Wendy Gibson, Stillwater Energy
Andrew Knox, Goldfin Consulting

Track 4: Collaborating through Complexity: Navigating Industrial Value Chains

Fiona Glasford, IESO
Andrea Marr, Cadmus Group

ACEEE STAFF:

Conferences: Amelia Armstrong, Rebecca Lunetta

Program: Richard Hart, Steve Nadel, Maggie Kelley Riggins

Communications: Camron Assadi, Mary Robert Carter, Kate Doughty, Rob Kerns, Nick Roper, Ben Somberg

Development: Alan Raymond

(DRAFT) PROGRAM

Wednesday, July 16

8:00 am – 5:30 pm

Add on: SEM Summit (\$150)

Kick off your 2025 Summer Study with the North American Strategic Energy Management (SEM) Collaborative at the ninth annual SEM Summit and second annual in-person SEM Awards! At this year's Summit, attendees will get to spend time catching up with one another, digging deeper than ever before as we move to introducing different tracks based on level of experience, and collaborating on making each other better. We will also reflect on what we have accomplished, with highlights from our working groups and announce the SEM Award winners. So, whether you are new to the work or a seasoned professional, there is something for you at the Summit.

9:00 am – 5:00 pm

Add on: Industrial Heat Pump (IHP) Alliance Buyers Bootcamp (\$50) *by invitation only*

The IHP Buyers Bootcamp is designed for industrial end-users (i.e., facility managers and sustainability engineers) looking to deepen their understanding of industrial heat pumps. This full-day interactive program will equip participants with the technical knowledge, financial tools, and strategic insights necessary to evaluate, plan, and execute successful IHP projects. From technical integration to securing financing and navigating utility considerations, attendees will leave the Bootcamp with actionable strategies to advance their IHP projects. Please reach out to hchen@aceee.org if you have any questions.

3:00 – 7:00 pm

Registration opens.

5:00 – 7:00 pm

Welcome Reception

Join us to officially kick-off the Summer Study at the Welcome Reception. Enjoy networking time and re-connecting with friends.

Wednesday, July 16

Thursday, July 17

7:00 am – 5:00 pm

Registration

7:30 – 8:30 am

Breakfast

8:30 – 10:00 am

Plenary Session

Welcome: Steve Nadel, Executive Director, ACEEE

Moderator: TBD

Speaker: TBD

10:00 – 10:30 am

Networking Break

10:30 am – 12:00 pm

Concurrent Track Sessions 1

Track 1, Session 1

Virtual Power Plants

Moderator: TBD

*Enhancing Grid Reliability, Resilience, and Affordability:
Industry Collaboration with Utilities and Governments
through Virtual Power Plants*

Sun Joo Hwang, University of North Carolina at Chapel Hill

*Predictive Modeling of Power Demand at Industrial Sites
for Enhanced Energy Management*

Scott Jasinski, Energy 350

Incentivizing Permanent Load Shifting

Peter Sharp, Cascade Energy

Track 2, Session 1

Emerging Strategies for Global Energy Competitiveness

Moderator: TBD

*Impacting Energy and Operational Performance
through Smart Manufacturing*

Haresh Malkani, CESMII

*Decarbonizing Industrial Operations through
Load Flexibility*

Sapna Dixit, Olivine Inc.

*Industrial Waste Reduction: Unlocking Hidden Energy
Efficiency Potential in Product Supply Chains*

Subodh Chaudhari, Oak Ridge National Laboratory

Track 3, Session 1

Training the Workforce that Leaders Need

Moderator: TBD

*Creating Energy Efficient Cultures at Colleges and Universities
Using a Strategic Energy Management Program*

Dana Mowry, Eversource Energy

*Empowering the Energy Transition: Strategies for Developing
a Skilled and Resilient Workforce*

Barbara Stapleton, The JPI Group

*Integrated Energy Management Training for Creating the
Next Generation of Strategic Energy Managers*

Vi Rapp, Lawrence Berkeley National Laboratory

Track 4, Session 1

Measuring and Quantifying Change

Moderator: TBD

*An Allocation-based Tool for Quantifying
Facility-level Product Emissions Intensity*

Nick Karki, Lawrence Berkeley National Laboratory

*ISO 50100: Ensuring Fairness and a Level Playing Field
for Manufacturers in Global Emissions Reporting and International
Trade*

Peter Therkelsen, Lawrence Berkeley National Laboratory

What We Learned from Evaluating Low Carbon Electrification Projects

Markus Zeller, BC Hydro

12:00 – 1:30 pm

Scholar & Awards Recognition Lunch with Guest Speaker

Scholar Program Introduction and Appeal: TBD

Scholar recipients recognized.

Award Program Introduction: TBD

Award recipients recognized.

Guest Speaker: Neva Espinoza, EPRI

1:30 – 3:00 pm

Concurrent Track Sessions 2

Track 1, Session 2 **Industrial Heat Pumps**

Moderator: TBD

A Market in Transition: Industrial Heat Pumps in the United States
Ruth Checknoff, Renewable Thermal Collaborative

The Thermal Balancing Act: Evaluating Heat Pump Opportunities for Industries in Minnesota
John Flanagan, Center for Energy and Environment

RD&D Priorities for Industrial Heat Pumps
Zachary Pritchard, US Department of Energy

Track 2, Session 2 **Collaborative Industrial Energy Programs and Thought Leadership**

Moderator: TBD

Industrial Research and Development Priorities
Joe Cresko, US Department of Energy
or Joe Powell, University of Houston

Accelerating Industrial Competitiveness through the DOE's Industrial Technology Validation (ITV) Program
Amy Pevzner, Lawrence Berkeley National Laboratory

Successful Organizational Strategies from Better Climate Challenge Partners
John O'Neill, US Department of Energy

Track 3, Session 2 **Giving Leadership a Boost**

Moderator: TBD

The Role of Leadership in Implementing 50001 Ready
Heidi Fuchs, Lawrence Berkeley National Laboratory

Save on Energy's Training and Support for Energy Efficiency in Industrial Process
Michael Oriahi, IESO

Identifying Effective Energy Audit Candidate Facilities via Novel Metrics
Miles Nevills, Oak Ridge National Laboratory

Track 4, Session 2

Cross Country Collaborations and Learnings

Moderator: TBD

Navigating Decarbonization in the Consumer Product Industry

Evan Talan, Adidas

Transformative Technologies and Strategies That Can Get Us to Net Zero

Brooke Gobster, Cascade Energy

Sustainability as a Service: A Scalable Model for Utilities to

Drive Industrial Energy Efficiency

Brooke Gobster, Cascade Energy

Bridging Silos: A Dialogue on Industrial Symbiosis for

Enhanced Industrial Efficiency

Rhys Roth, Center for Sustainable Infrastructure

3:00 – 3:30 pm

Networking Break

3:30 – 5:00 pm

ACTION and INFORMAL SESSION(S)

TBD

Co-Organizers: TBD

Panelists: TBD

7:00 am – 3:30 pm

Registration

7:30 – 8:30 am

Breakfast and

Women in Energy Efficiency Breakfast sponsored by **CLEAResult®**

(Breakfasts set up as buffet in Foyer)

Moderator: TBD

Powering Progress: Women Leading the Charge in Energy Efficiency & Demand-Side Management

Sarah Spencer Workman, Vice President of Energy Efficiency, CLEAResult

8:30 – 10:00 am

Track 1, Session 3

Large Loads

Moderator: TBD

Data Center Energy Efficiency

Kennedy Bennett, SC Coastal Conservation League

Energy Efficiency & Demand Flexibility for Data Centers

Rishabh Juneja, US Department of Energy

Electricity Rate Designs for Large Loads: Evolving Practices and Opportunities

Andrew Satchwell, Lawrence Berkeley National Laboratory

Track 2, Session 3

Industrial Process Heating

Moderator: TBD

Energy Efficient and Fuel Flexible Technologies for the Metals Industry

Sandeep Alavandi, GTI Energy

Decarbonizing California's Industry with Hydrogen: Industrial Testing Results

Paul Glanville, GTI Energy

Decarbonizing Low Temperature Industrial Heat: Measuring Economic Potential and Policy Mechanisms

Rawley Loken, E3

Track 3, Session 3

Leadership to Meet Today's Challenges

Moderator: TBD

Redefining Leadership: Driving Industrial Energy Efficiency for a Sustainable Future

Kenny Porter, Michaels Energy

Energizing Change: The Synergy of Efficiency and Decarbonization for a Sustainable Tomorrow

Sharon Nolen

Leveraging Resilience Planning as an Industrial Strategic Advantage

Julia Rotondo, Pacific Northwest National Laboratory

Track 4, Session 3

Communicating Supply Chain Value

Moderator: TBD

Thriving in the Carbon-aware Market: How to Account for Emissions in the Era of Carbon-centered Trade Policies
Prakash Rao, Lawrence Berkeley National Laboratory

Counting the Carbon: Assessing the Societal Costs and Benefits of Embodied Carbon as a Net Zero Policy
Derek Okada, Energy Solutions

Bridging the Gap: Collaborative Finance for Energy Transition in Value Chains
Hemang Nerlekar, Guidehouse

10:00 – 10:30 am

Networking Break

10:30 am – 12:00 pm

Concurrent Panel Sessions 2

Track 1, Session 4

Industrial Energy Efficiency

Moderator: TBD

Fan Efficiency Programs and the Industrial Sector; a Coordinated Effort to Effectively Transform the Market
Kristen Aramthanapon, Northwest Energy Efficiency Alliance

Scaling Efficiency Projects at Industrial Sites via a Study-Based Utility Offering
Andrea McKenna, Cascade Energy

Overcoming Barriers to Energy Efficiency for More Competitive and Resilient Energy-Intensive Industries
Senthil Kumar Sundaramoorthy, Oak Ridge National Laboratory

Track 2, Session 4

Energy Potential and Trends in US Industry

Moderator: TBD

US Industrial Sector Combined Heat and Power: Decarbonization Help or Hindrance?
Aidan Oneil, UCSB

Shrinking Giants: How Utility Programs Can Help Data Centers Lead the Way in Energy Efficiency
Amy Summers, Energy Trust New Buildings Program

Technical Potential for Onsite PV and Wind Power at U.S. Manufacturing Facilities
Matt Leach, National Renewable Energy Laboratory

Track 3, Session 4

Tools for Leadership in a Time of Uncertainty

Moderator: TBD

Level Up Your Delivery: Free resources to support SEM programs

Dave Hall, Energy 350

*JUSTIFI: Software for Improving Performance Objectives
via Energy Efficiency*

Sarah Cooney, National Renewable Energy Laboratory

*Heroic Leadership in Challenging Times: Empowering
Teams to Overcome Setbacks*

Lisa Bennett

Track 4, Session 4

One Size Does Not Fit All: Examples from Across Industry

Moderator: TBD

Advancing Energy Efficiency Adoption in U.S.

Energy-Intensive Industries: Insights from the ITAC Database

Asma Khasawneh, University of Wisconsin

*Unlocking Industrial Decarbonization: One Size Does
Not Fit All*

Amit Kanungo, DNV

*The US DOE's Industrial Demonstrations Program:
What's the Latest?*

Archie Fraser, ACEEE

12:00 – 1:30 pm

Lunch Plenary

Avi Shultz, US Department of Energy

1:30 – 3:00 pm

"Office Hours"

Continue the discussion around Action Plans

3:00 – 3:30 pm

Networking Break

3:30 pm

Conference Ends

Thanks for joining us!
